

MERIDIAN MODELS SCALE NARROW GAUGE FOR 009

BODY KITS USING 'N' SCALE

MM1 MOTOR RAIL & TRAMCAR Co 'SIMPLEX' 40hp PETROL
TRACTOR WAR DEPT LIGHT Rly. ARMoured VERSION

Used by the L.R.O.D during WW 1 on the forward area supply lines, the loco bodies were built from armoured plate to protect the driver against small arms fire and shrapnel. These were later sold off as war surplus and used on light railway such as Leighton Buzzard, the Festiniog Railway and at Knostrop Sewage Works, Nr Leeds. At least 5 locomotives of this type have been preserved.

The kit is designed to fit the Jouef H0e 'Decauville' 0-4-0 loco chassis. Alternative instructions are included for adapting the kit to fit onto the Arnold 'N' KOF III chassis. Parts are also included to build a non-powered chassis (**wheels not supplied**)
