

MM 14 **ORENSTEIN & KOPPEL 'PLANTATION'**
0-4-2 WELL TANK

O&K were probably the best known of the German locomotive builders. Founded in they produced a wide range of locomotives both diesel and steam, for narrow gauge, each being tailored to the customers requirements and to the industries they were required to work in. There was a good market in supplying equipment for the sugar cane industry in many parts of the world. This was exploited by many companies able to supply complete railways i.e. track, locos and rolling stock. O&K were one such company and this loco represents one design for this work.

The kit is designed to fit a Bachmann 'N' scale 0-4-0 Docksider chassis. Kit comprises 24 white metal castings with comprehensive surface detail, brass wire, chassis mounting bolts and trailing wheel set and full instructions and building notes.
