

**MPM 14 TALYLLYN RAILWAY Co. LANCASTER
COACH CHASSIS**

Useful 4-wheel chassis for hand building own design vehicles. Supplied with floor and under frame, footboards, buffer beams and 9mm diameter spoked wheels

**MPM 15 TALYLLYN RAILWAY COMPANY COACH
No.3 1st/3rd**

Coach No.3 was built by Brown Marshall & Co. Ltd. in 1866 and was the first passenger vehicle supplied to the Talyllyn Railway. Originally an all 3rd class vehicle and later addition of a full height partition converted one compartment to a 2nd class then latterly 1st class status.

This kit is one of 'multi media' construction and features, etched brass body, with full external panelling and beading, door and grab handles, interior seating, partitioning and roof. Additional body detail parts are supplied to enable the builder to adapt the coach for a freelance role. Fully detailed injection moulded plastic floor and under frame, with correct axle boxes and springing. Supplied with correct pattern lost-wax brass side buffers, 8mm spoked wheel sets and glazing material.

**MPM 17 TALYLLYN RAILWAY Co. BROWN, MARSHALL
