

PARKSIDE DUNDAS

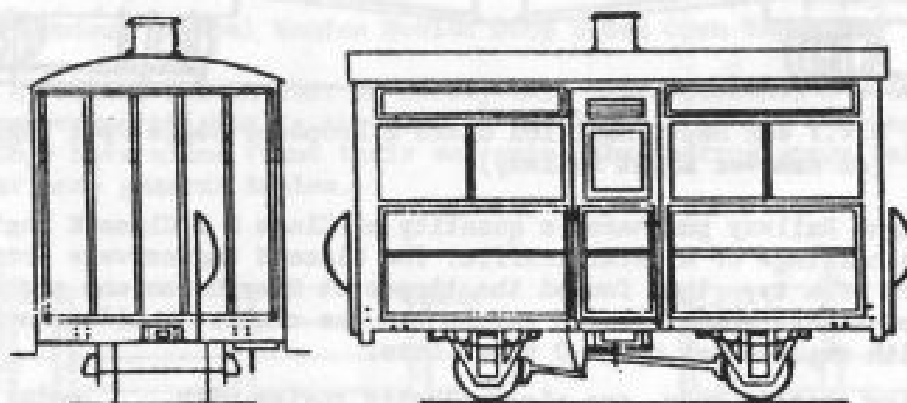

Vale of Rheidol Light Railway

Three identical 4-Wheel Brake Vans were built by the Midland Railway Carriage & Wagon Company, Shrewsbury for the opening of the railway in 1902. These vans were used on all trains as none of the original coaches had luggage or guards compartments.

DM17 Vale of Rheidol 4-Wheel Wooden Sided Guard's Van No's 13-15

The kit contains plastic body and chassis including a choice of either oil or gas lamp top, metal wheels and white metal steam and vacuum pipes. Requires B1210 009 Couplings (not included).

DM28 Single Compartment 4-Wheel Coach (based on Vale of Rheidol/Glyn Valley practice)

This vehicle is designed as a companion for our DM17 Vale of Rheidol Guard's Van but would also be suitable for any freelance layout.

The kit contains plastic body and chassis including a choice of either oil or gas lamp top, metal wheels and white metal vacuum pipes. Requires B1210 009 Couplings (not included)
