

PARKSIDE DUNDAS

DM29 Two Compartment 4-Wheel Coach
(based on Vale of Rheidol/Glyn Valley practice)

This vehicle has been designed as a companion for our DM17 Vale of Rheidol Guard's Van and DM28 Single Compartment 4-Wheel Coach and would also be suitable for any freelance layout.

The kit contains plastic body and chassis including a choice of either oil or gas lamp top, metal wheels and white metal vacuum pipes. Requires BEMO 009 Couplings (not included)

W.W.1 War Department 60cm Gauge Rolling Stock

DM30 W.W.1 War Dept. Modified Class E Dropdoor Bogie Open Wagon
(ex Ashover Light Railway)

The Ashover Light Railway purchased a quantity of Class D & Class E Bogie Open Wagons for the carriage of mineral traffic. The Class E wagons were found to have truss bars of a type that fouled the tipper at Clay Cross and prevented easy tipping of stone. These Class E wagons had the centre 'well' removed and were fitted with replacement Class D truss bars.

The kit contains plastic body, one piece plastic bogies with metal wheels. The bogies are designed to use BEMO 009 Couplings (not included)
