

PARKSIDE DUNDAS

Festiniog Railway

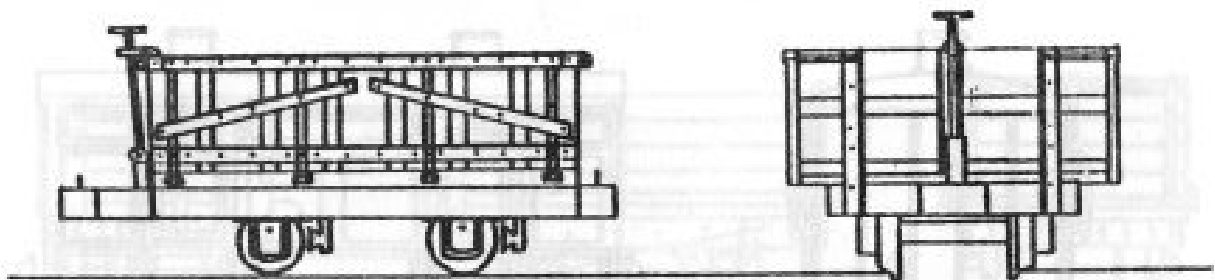

DN31 Festiniog Railway 4-Wheel Hudson Steel Bodied Open Wagon

The Festiniog Railway purchased 15 of these wagons from R.A.F. Alrewas, Staffordshire in 1963. All have steel bodies, drop sides and are hand braked. They were built by Robert Hudson Ltd. Leeds. These wagons are used in Permanent Way trains carrying ballast, sleepers etc. Series Nos 83 - 96 inclusive and No 98.

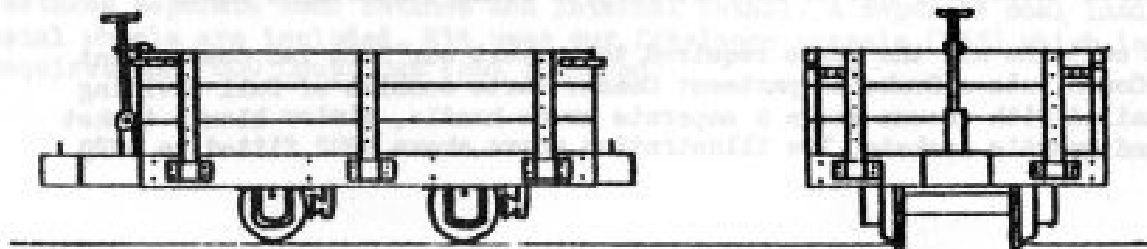

The kit contains plastic body and chassis, curved spoke metal wheels and chain link couplings. Has also been designed to accept BEMO 009 Couplings (not included).

Robert Hudson Ltd. Rolling Stock

DN32 Hudson 4-Wheel Wooden Bodied Drop Sided Open Wagon

Manufactured by Robert Hudson Ltd. of Leeds, this kit represents a wooden bodied, drop sided open wagon originally supplied to the R.A.F. for the carriage of ammunition. They have since found their way onto other narrow gauge railways being used for more general duties.

DN33 Hudson 4-Wheel Wooden Bodied Three Plank Open Wagon

Manufactured by Robert Hudson Ltd. of Leeds, this kit represents a wooden bodied, three plank open wagon in which the sides and ends could be lifted out if required.

Both kits contain plastic body and chassis, curved spoke metal wheels and chain link couplings. Have also been designed to accept BEMO 009 Couplings (not included).
