

PARKSIDE DUNDAS

- DM37 Hudson 'V' Tipper Wagon
DM38 Hudson 'V' Tipper Wagon (pack of 5)

Manufactured by R. Hudson Ltd., of Leeds, these wagons can be found on any narrow gauge railway, being used for many purposes. They are also used at sand pits, quarries and loco depots and by the War Department.

The kit features a one piece body, metal wheels, chain couplings and easy to follow illustrated instructions.

- DM39 Glyn Valley Tramway 4 Ton Mineral Wagon
DM42 Glyn Valley Tramway 4 Ton Mineral Wagon (pack of 5)

About 180 of these wagons carried granite sets and kerb stones in early days and in later years road chippings, tarmacadam, railway ballast and stone dust. The Ceiriog Granite Company had 20 wagons of similar construction but varied in minor details.

The kit has plastic body and chassis including internal detail and separate wagon load. Complete with metal wheels. Requires BEMO OC2 Couplings (not included).
