

## PARKSIDE DUNDAS

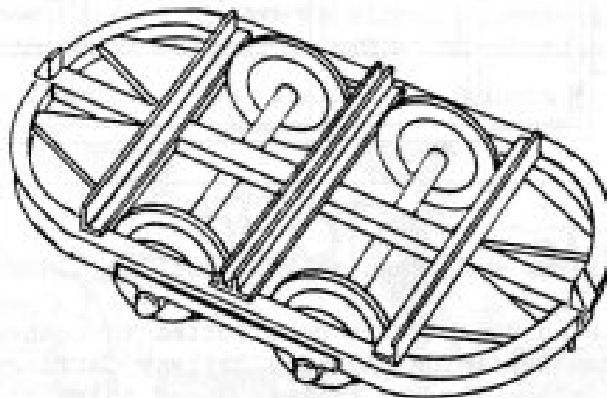

### Welsh Highland Railway

#### DM40 Welsh Highland Railway Bogie Coach

This kit is a model of the 'Bro Mdog Eistedd' Bogie Coach built by the Welsh Highland Railway in 1987. Although recently built this coach follows traditional lines with its attractive vertically planked sides.

The kit features plastic body including exterior & interior details, moulded roof, air cylinder, air brake pipes and one-piece plastic bogies complete with curved spoke metal wheels. Requires BEMO 009 Couplings (not included)

#### DM41 Hudson Wagon Chassis (curved ends) - pack of 5

Manufactured by R. Hudson of Leeds, these chassis can be found on any narrow gauge railway, being used in the construction of a wide selection of vehicles including mining, platform and bolster wagons.

Moulded in plastic the kit also includes metal wheels and chain couplings.
