

**A COMPREHENSIVE
RANGE OF PRODUCTS TO
AID TRACK BUILDING,
SCENERY AND MODEL
STRUCTURES**

TS 001 (G)	Approx. 500 track spikes from the Roy Link range (7.5mm x 0.7mm)
TS 002 (3)	Approx. 100 dyed wooden sleepers (1mm x 5mm x 30-35mm)
TS 003 (3)	Twenty 150mm long dyed wooden sleeper strips (1mm x 5mm)
TS 004 (3)	Approx. 100 dyed wooden sleepers (1.5mm x 5mm x 30-35mm)
TS 005 (3)	Twenty 150mm long dyed wooden sleeper strips (1.5mm x 5mm)
TS 006 (4)	Eight 150mm long sleeper strips of milled Paxolin, suitable for any gauge "Jubilee" track
TS 007 (K)	'WoodStik' A small pack of powder glue - just add water to the amount you need
TS 008 (3)	Black Spirit dye - very effective on wood
TS 009 (3)	Brown spirit dye
TS 010 (2)	Weather Powder - white. Use on wood after staining
TS 011 (2)	Weather Powder - green. For subtle toning
TS 012 (4)	"Brambles" (Light green) - To get the best results from these packs, glue a little of the material to a pre coloured prepared surface - let dry - pull away and tease up what remains. Spray with hair spray and add scatter material. Remember, these packs go a long way.
TS 013 (4)	"Brambles" (Dark green)
TS 014 (4)	"Brambles" (Brown)
TS 015 (2)	Rubbersed Horse Hair - for hedges and bushes
TS 016 (2)	Weathering Brush - small wide head soft brush for getting the best out of the weather powders
TS 017 (K)	Sanding Block - measures approx. 2½" x 1½". Ergonomically profiled hardwood back with cork face
TS 018 (2)	Six pieces of sand paper - Two coarse, two medium, two fine grade
TS 019 (2)	"Industrial Glazing" - Four sheets (two 80mm x 90mm, two 50mm x 60mm) of textured opaque plastic
